

LRC Apprentice Scheme

LRC Displays

Think about the theme of your display & what it will feature.
Make sure that it will be interesting for students to look at.

Open Google slides & start to paste over your information. Make sure lettering is bright & eye-catching.
Do not use too much text.

Print out & cut up your finished display. Add it to an attractive background & use an innovative border.

Plan your display with searches you want to use to find images, quotes & information.
Use online websites such as Pinterest, Slideshare, Google Images or Clip Art.

When your display is finished, share this on Google so it can be used or adapted again. Also add it to the LRC Pinterest display board.
